## CUVÉE VAUBAN

**A.O.P. Collioure**  
**Red Wine**

**Soil:**

The vineyard grows on brown schist soil near the sea.

**Grape varieties:**

**70% Syrah, 20% Carignan, 10% Mourvèdre.**

**Production method:**

After destemming and crushing, the grapes are macerated for at least 10 days. The Carignan is vinified with carbonic maceration.

**Ageing:**

In vats.

**Description:**

Garnet colour with brick red tints. Elegant bouquet with notes of cherry stone, red berry jam and spices. The initial effect on the palate is warming and the tannins are smooth. The finish is long, spicy and fruity.

**Storing:**

Can be laid down for two years.

**Serving suggestion:**

Red meats, mature cheeses, game.

**Serving temperature:** Serve at 16°C.
